FoldScene / The little night garden

Print at 100% / Actual size. Single-sided. Solid = cut; dashed = fold. Outline edition.

LEFT ACCORDION / keep the whole rectangle

RIGHT ACCORDION / keep the whole rectangle

FoldScene / Before the first cut

Read this sheet once. Then print pages 1-3 for colour, or 4-6 for the outline edition.

Check the printer scale

The bar below must measure 50 mm. Turn off Fit, Shrink and borderless enlargement.

Keep the tabs

Each face is 120 x 100 mm, plus two 8 mm tabs. Cut around the tabs, not through them.

Cut the windows first

Remove the labelled openings in A, B and C. D is a solid background. Keep the narrow leaves attached.

Fold the side strips

Score at 20, 40, 60, 80 and 100 mm. Alternate folds to make a zigzag.

Make mirrored accordions

Match the mirrored top view below, with A at the front on both sides. Printed labels face outwards.

Dry-fit four layers

A is front, then B, C, and D at the back. Match each tab to its letter on the reverse of each side strip.

Attach from the back

Fold D tabs toward the front; fold A, B and C tabs toward the back. Use a small amount of glue or tape.

Let the hinges move

Keep adhesive within the grey 8 mm zones. Do not glue across a dashed crease. Let each join set.

Open gently

Expand both sides evenly. Look from the front to check the moon and hills. Do not pull the strips flat.

Try plain paper first

The geometry and PDF scale are digitally checked. Paper weight, glue and hand assembly need a trial.

50 mm scale check

Use a cutting mat for inside cuts; children need an adult to handle sharp cutting tools.

TOP VIEW / A AT FRONT

Match the two mirrored zigzags.

Open both sides evenly.

Spacing varies as the folds open.
